- Kolik dortů je na obrázku? A kolik dalších dobrot? Spočítej a napiš číslici nebo počet čárek do čtverečku k příslušné sladkosti.

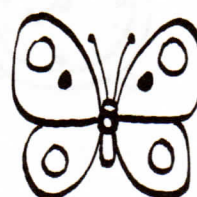

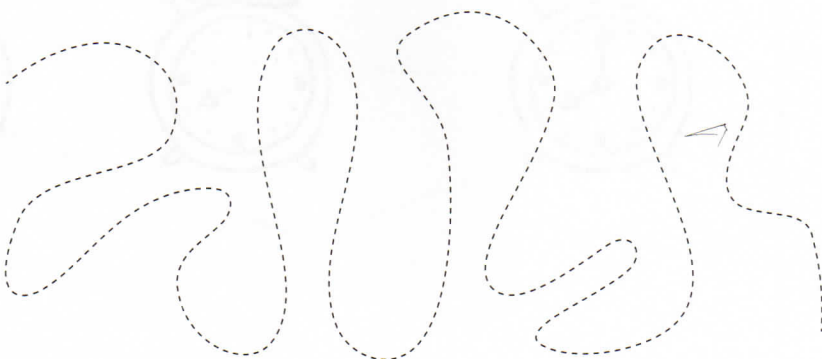

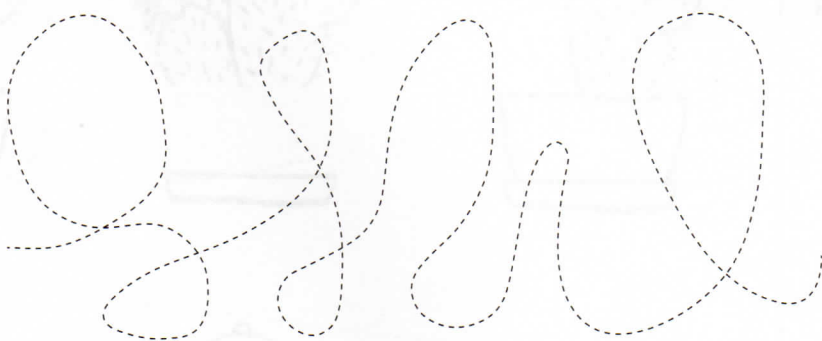

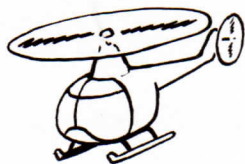

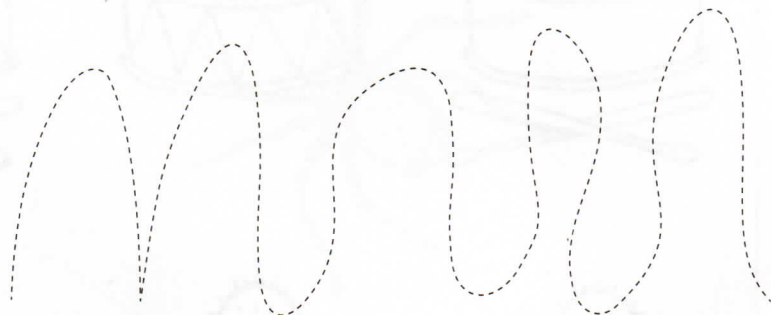

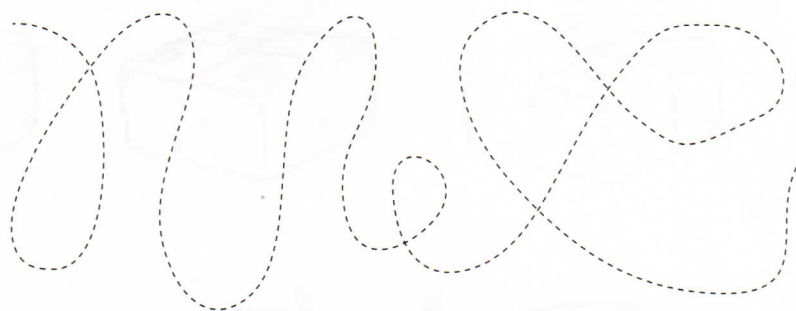

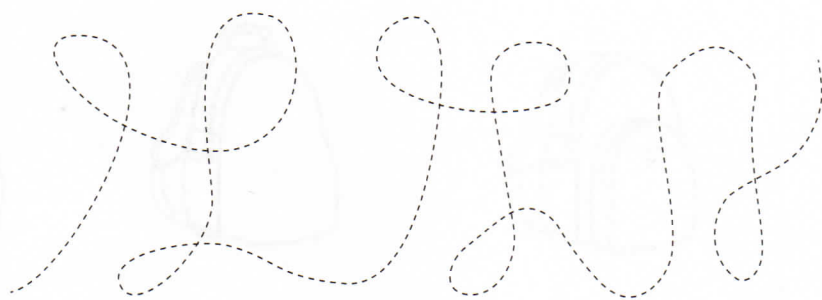

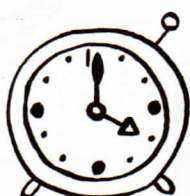

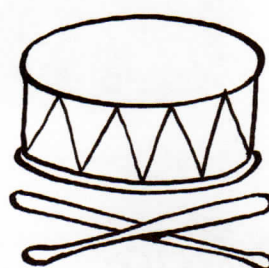

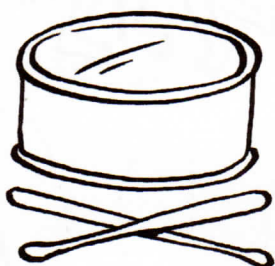

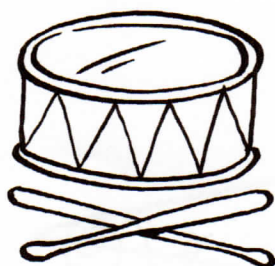

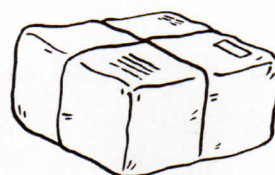

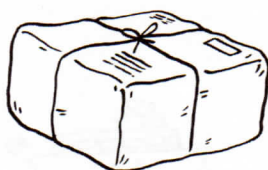

- Slova, která na obrázku začínají písmenkem **A** zakroužkuj červeně,
slova na **E** modře a slova na **O** žlutě.

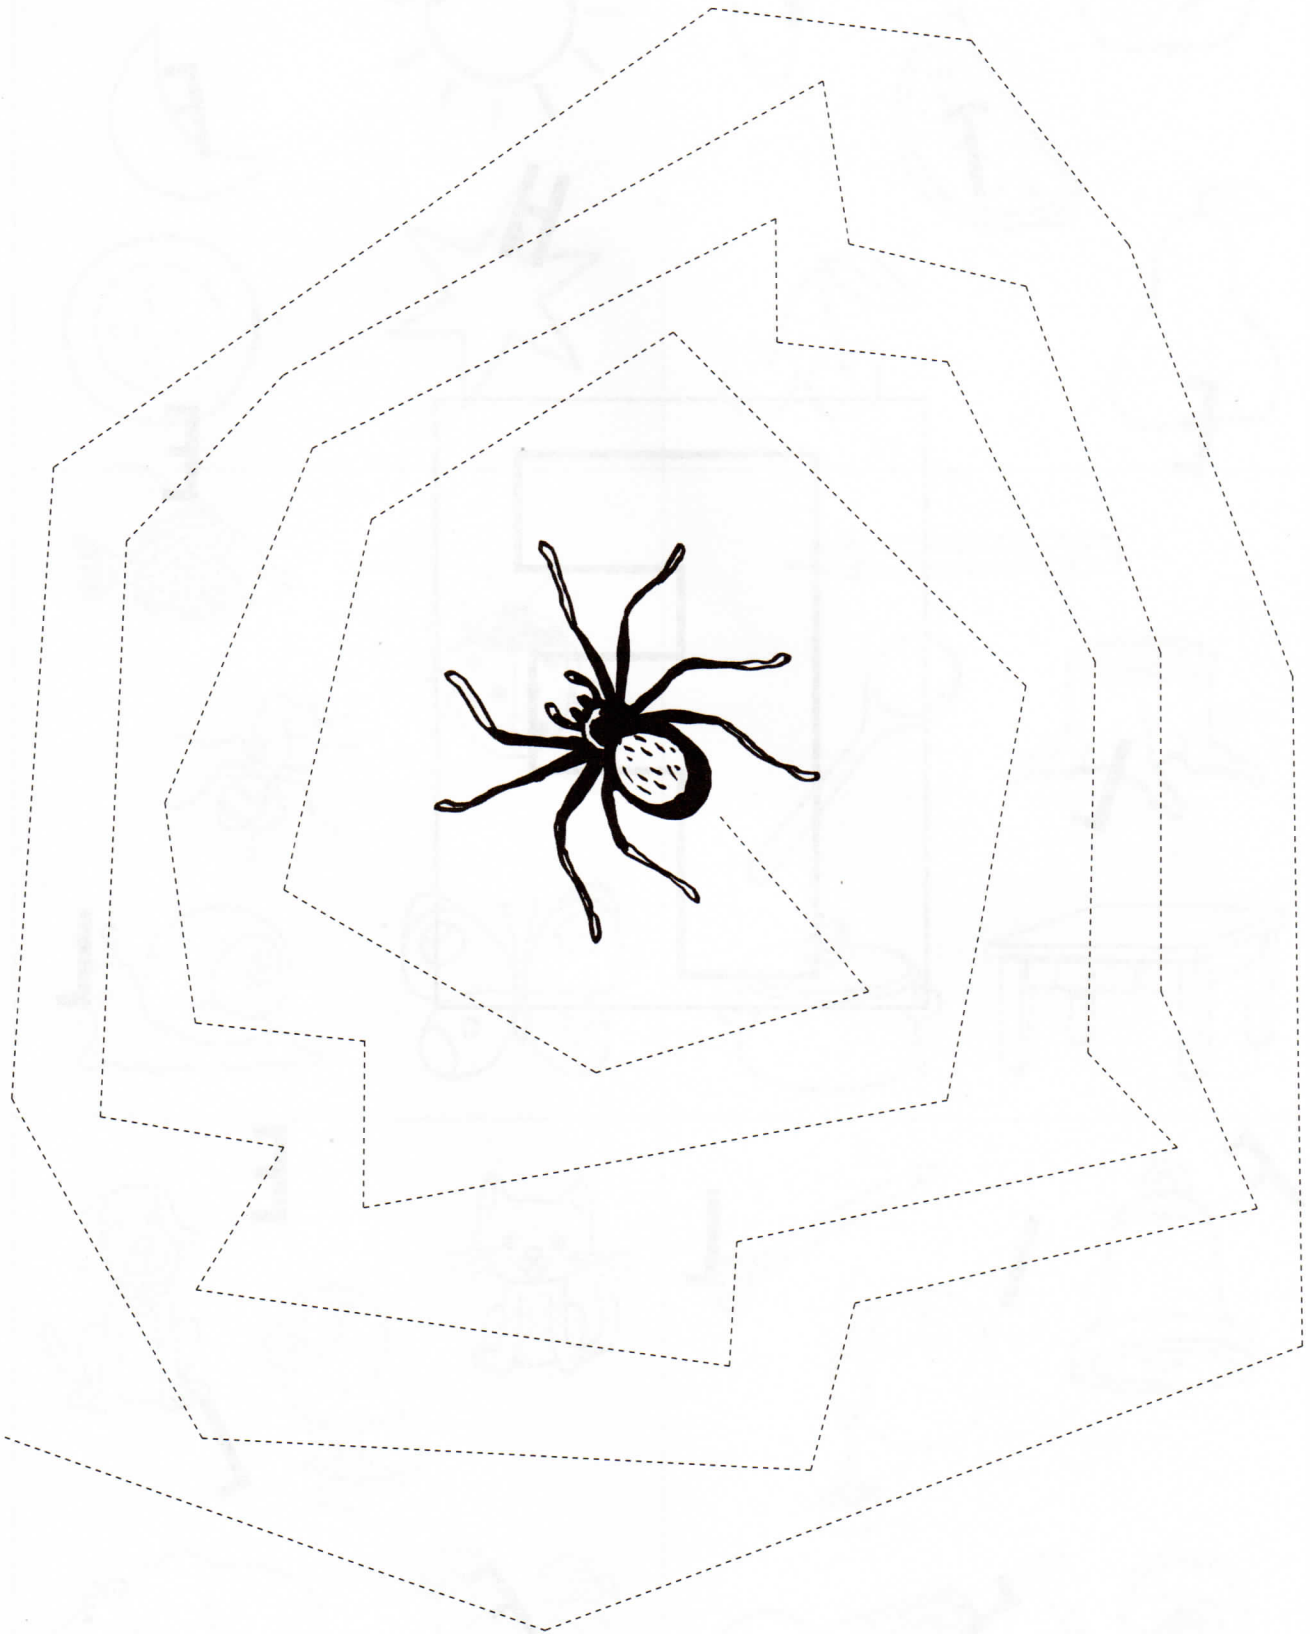

■ Projed' dráhy pěti pastelkami.

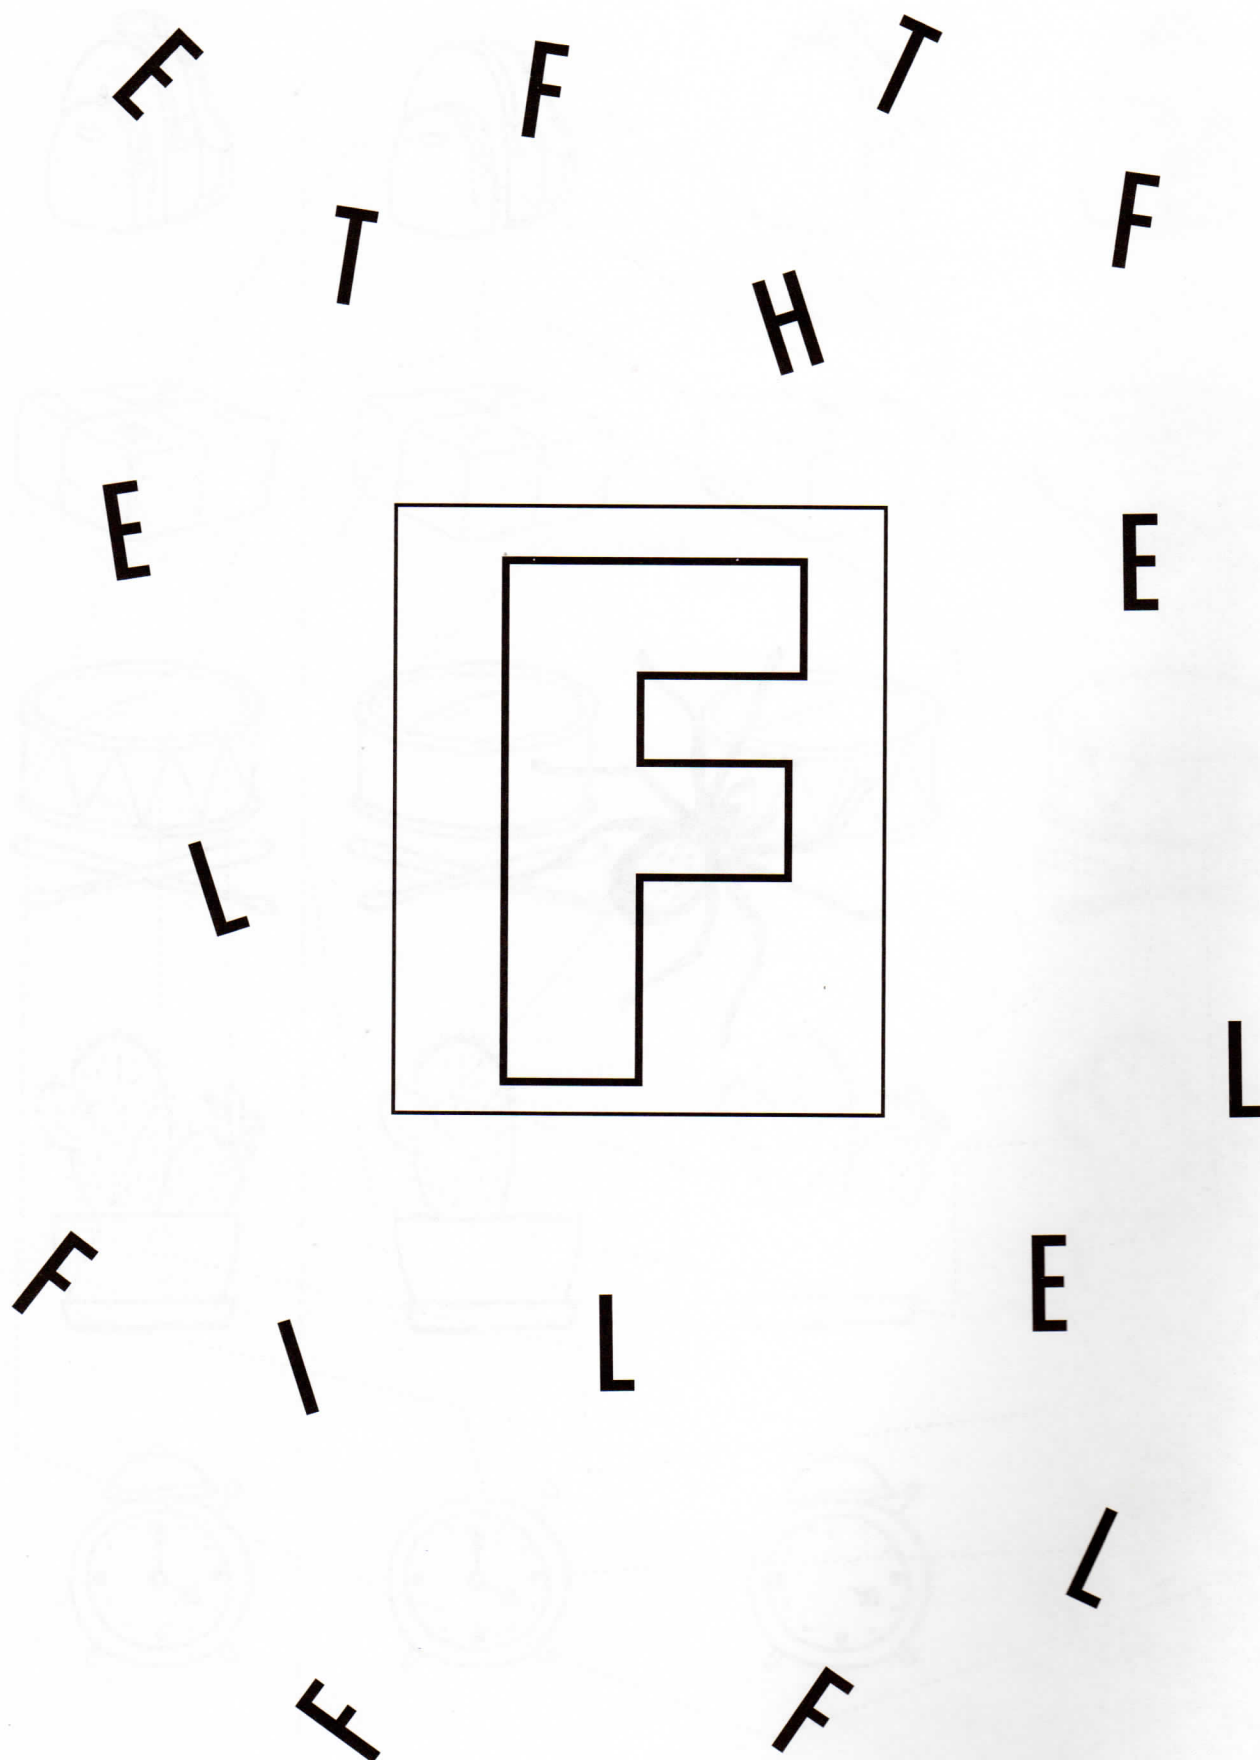

- Před čarou je obrázek hotový. Za čarou na každém něco chybí. Pan malíř byl asi nepozorný. Najdi chybu a barevnou pastelkou chybějící část dokresli.

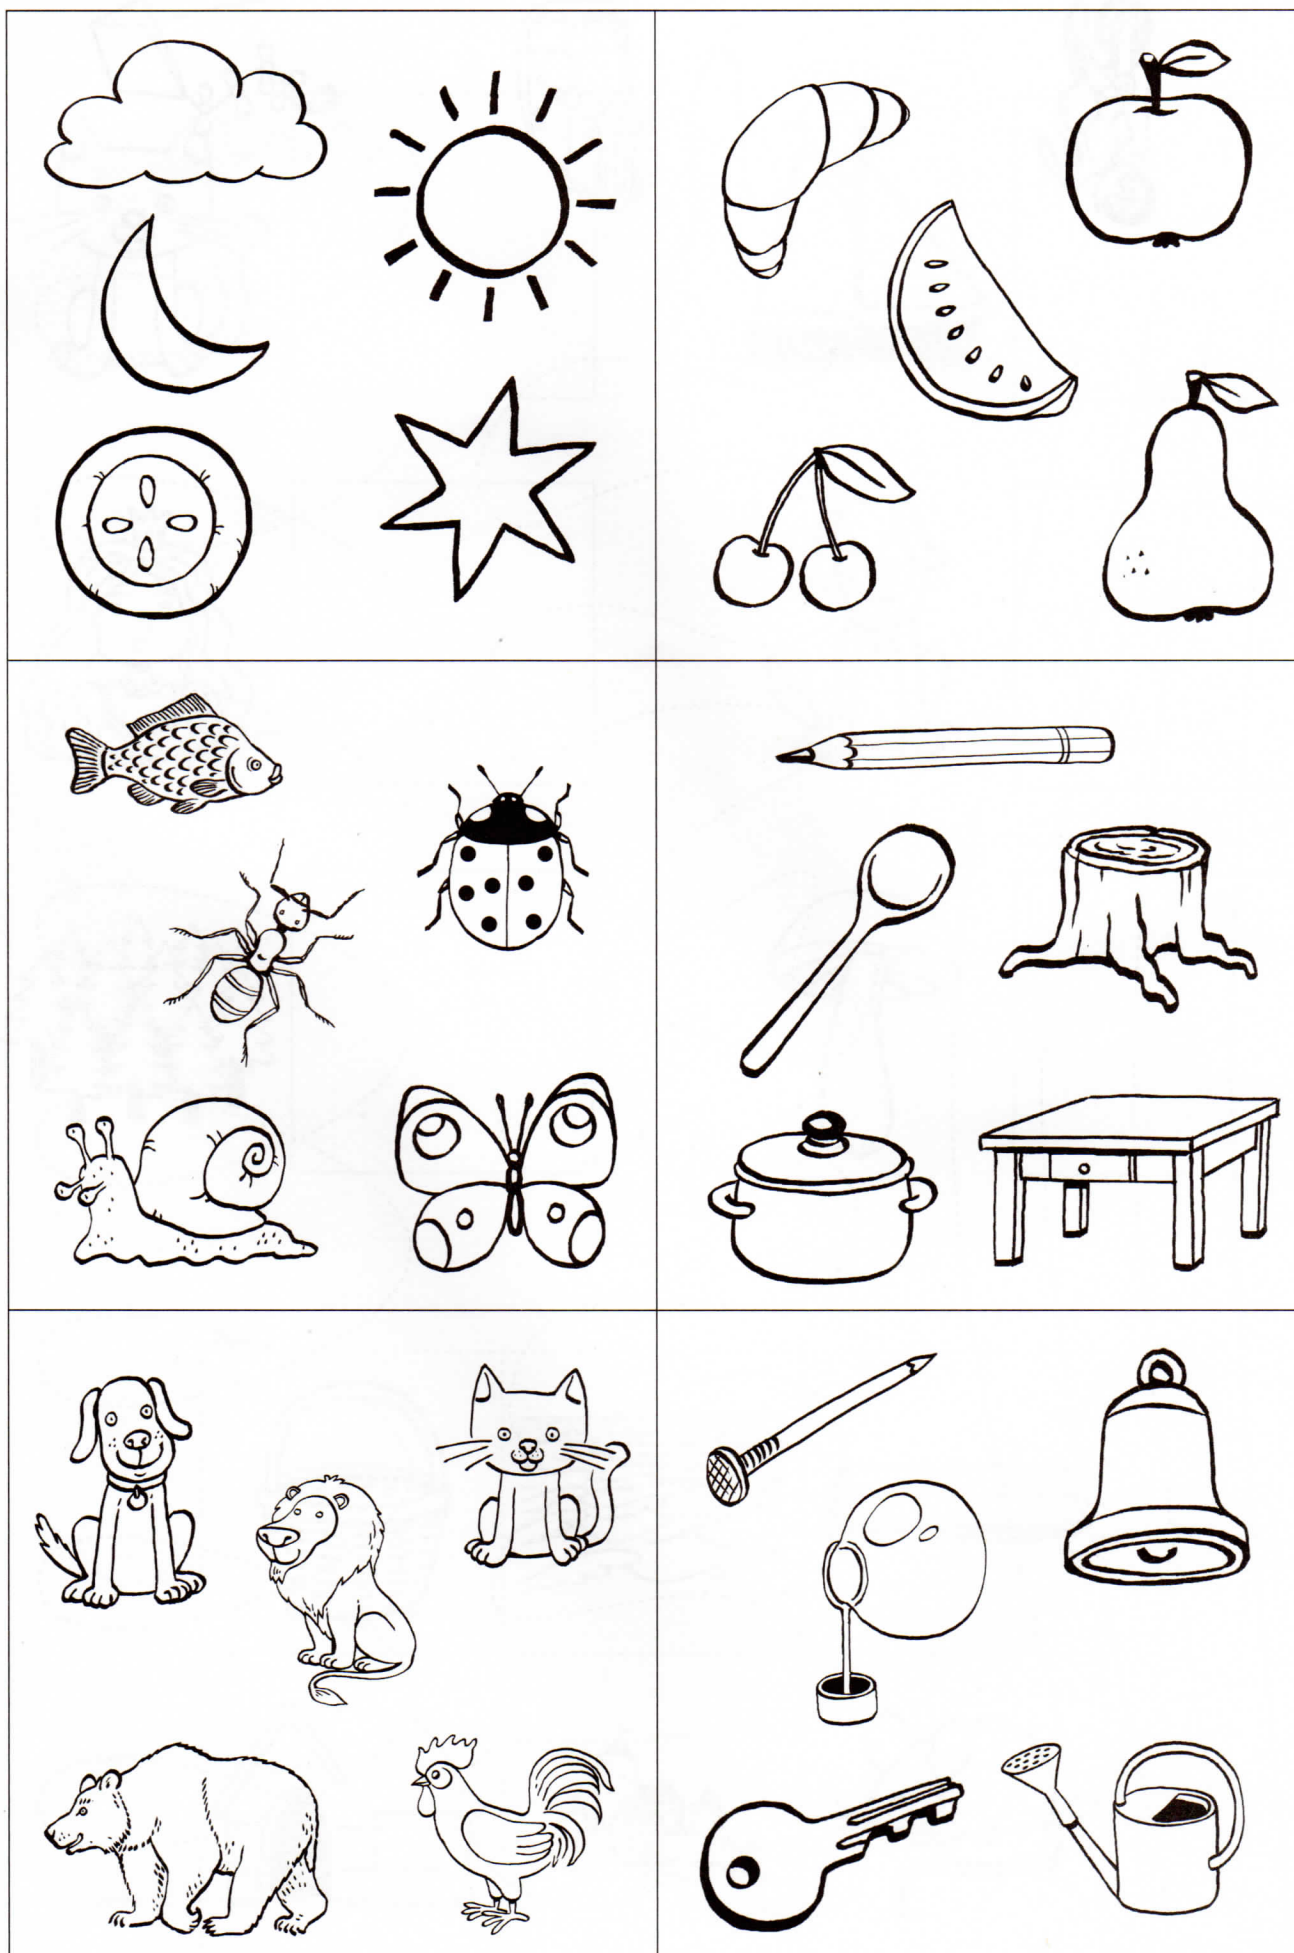

■ Projed' pavoučí síť pěti pastelkami po sobě.

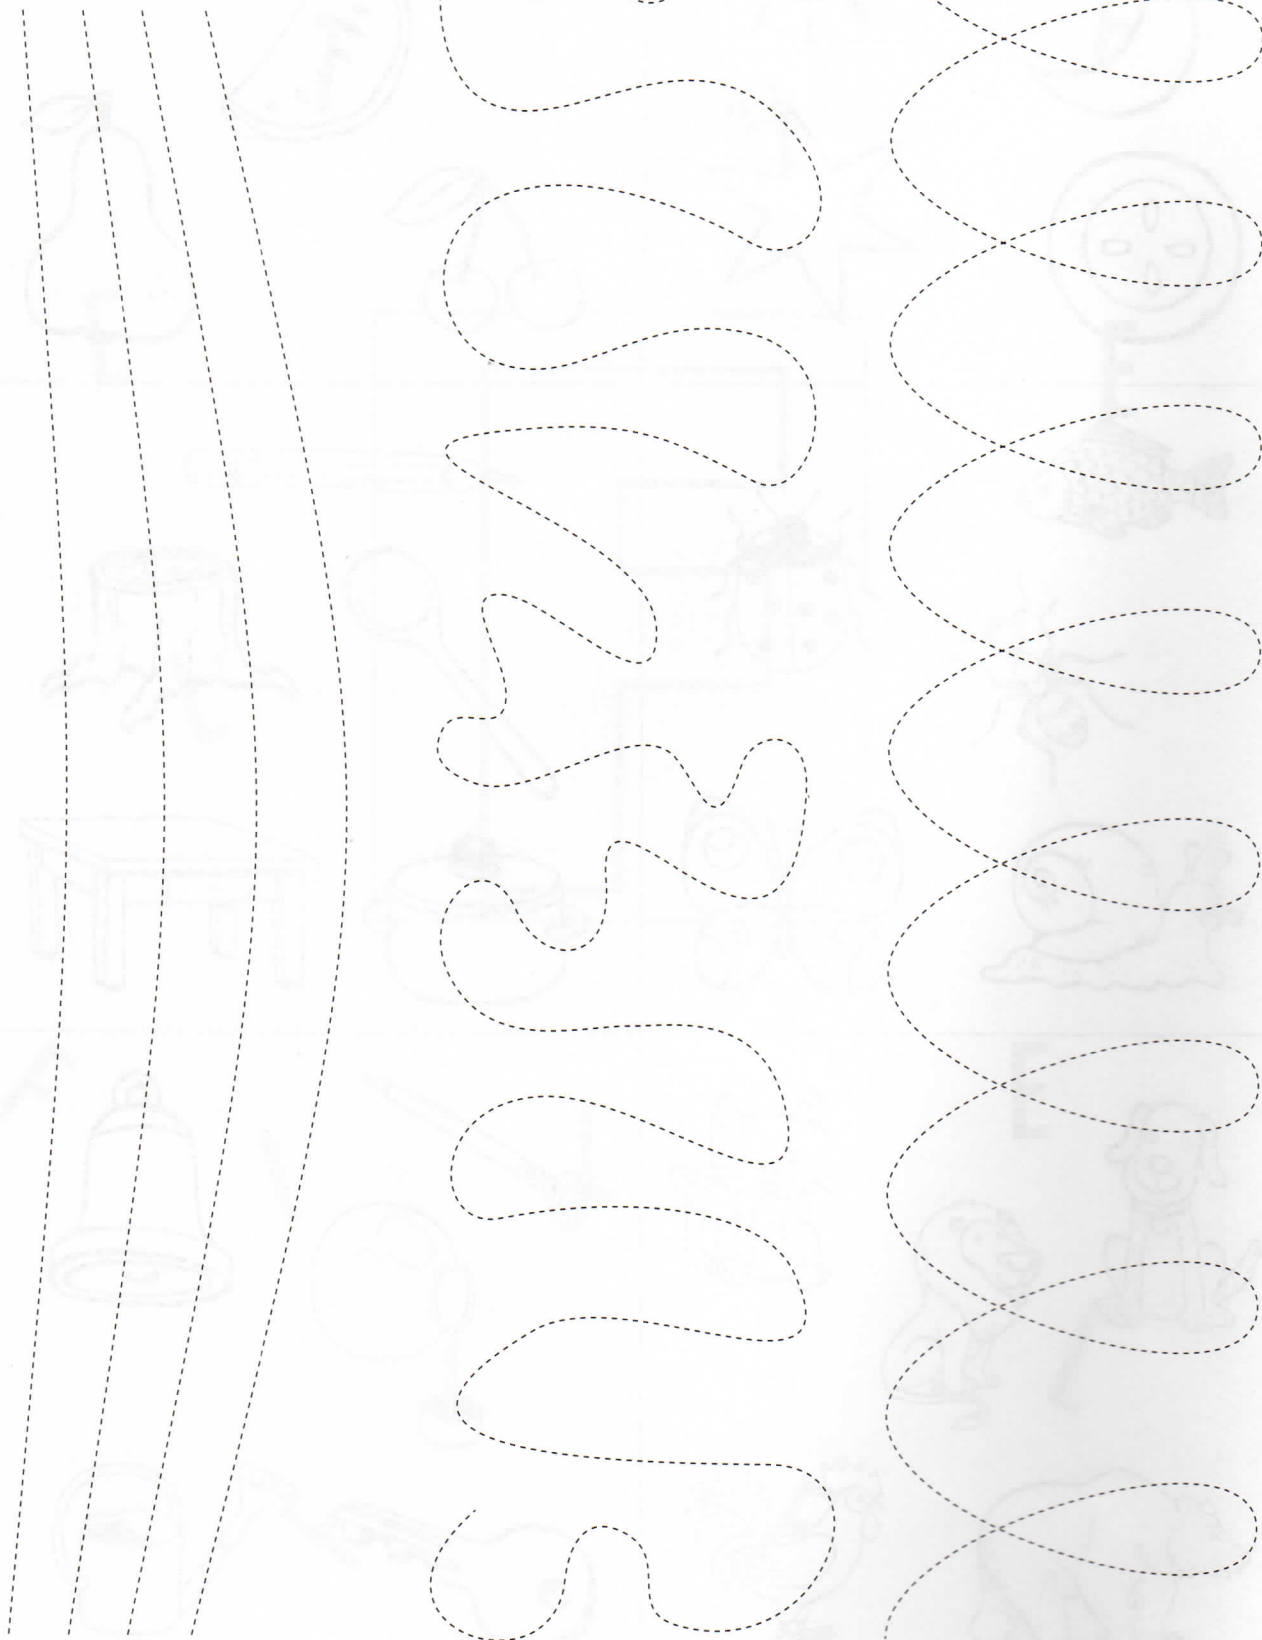

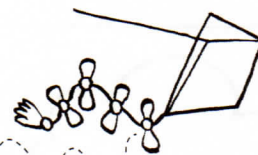

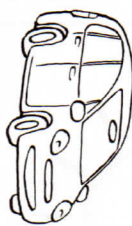

- Uprostřed stránky vidíš písmenko, vybarvi ho libovolnou barvou. Stejnou barvou zakroužkuj písmenka rozsypaná po stránce, která vypadají úplně stejně.

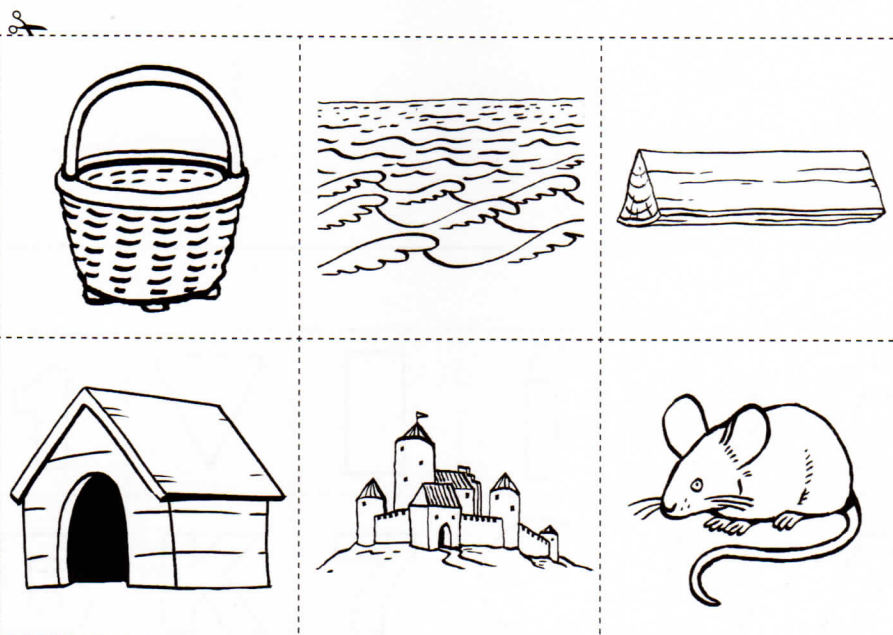

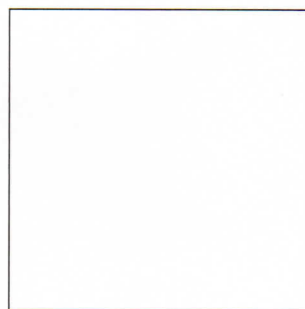

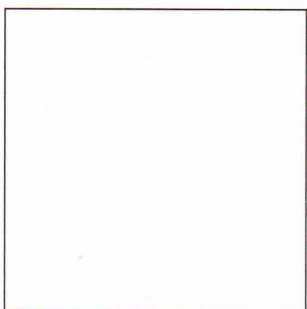

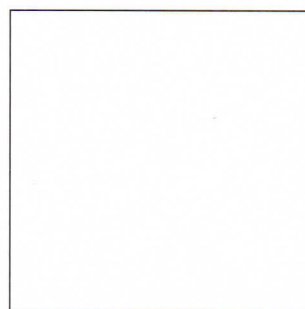

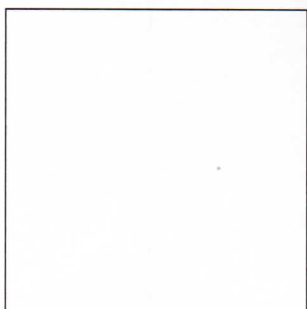

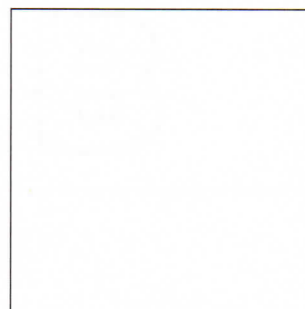

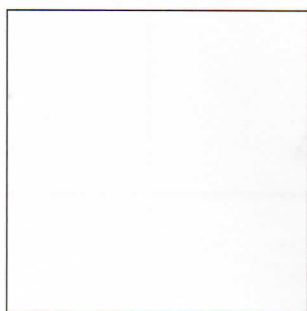

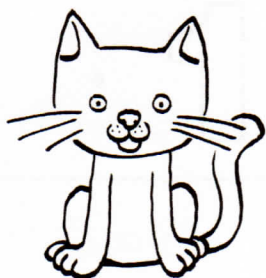

■ Vybarvi v každém čtverci obrázky, který se mezi ostatní nehodí.

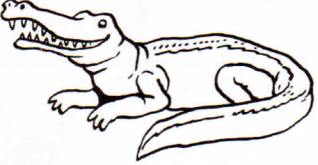

■ Projed' dráhy pěti pastelkami.

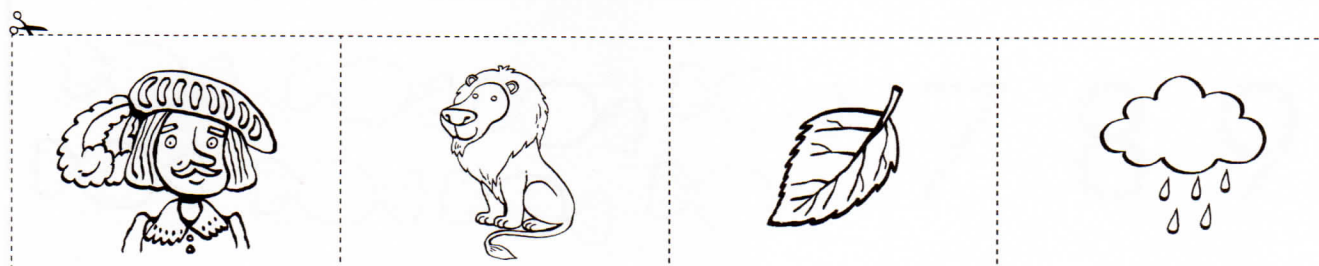

■ Nejprve si vystříhni obrázky ve spodní části a přilep je do čtverečku k obrázku, který k němu patří.

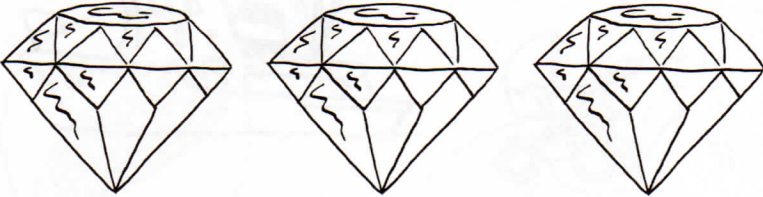

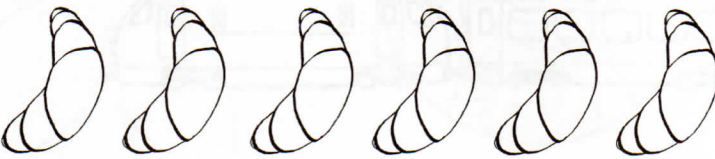

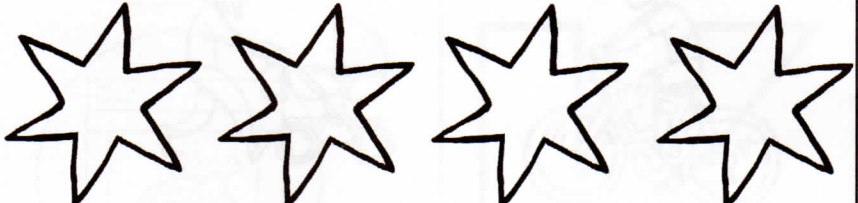

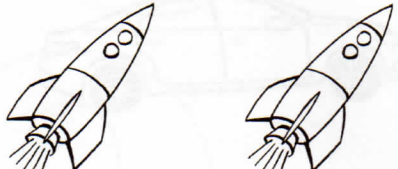

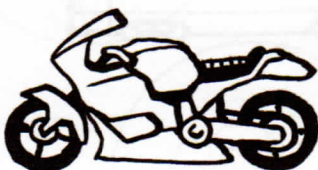

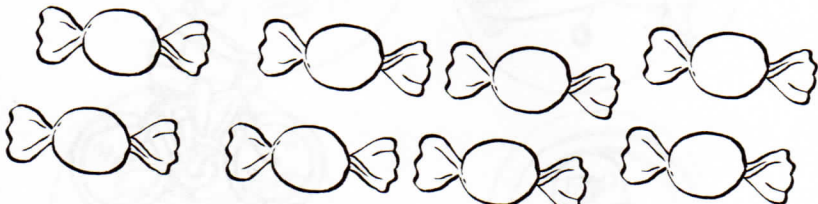

- Vystřihni obrázky pod tabulkou a nalep je správně do tabulky. Nejprve si nahlas řekni, jak budou obrázky v řádku následovat.

   	
    	
   	
   	

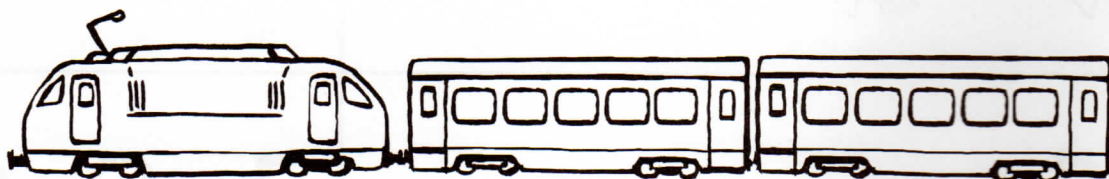

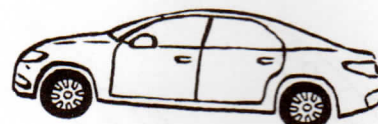

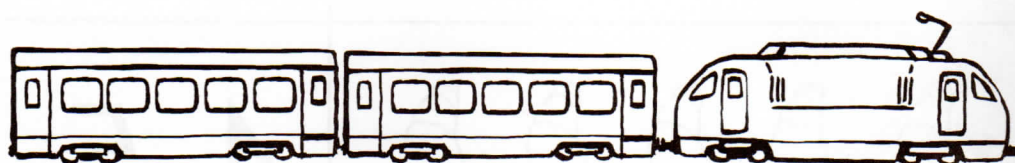

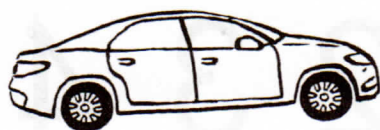

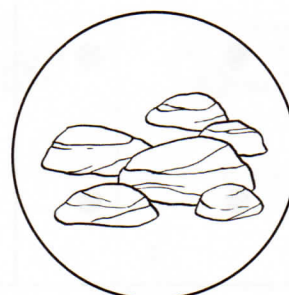

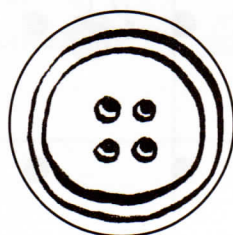

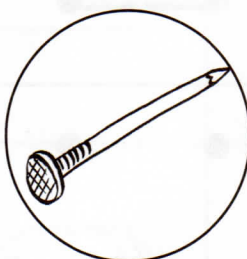

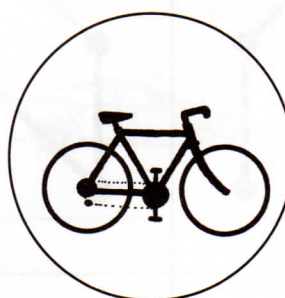

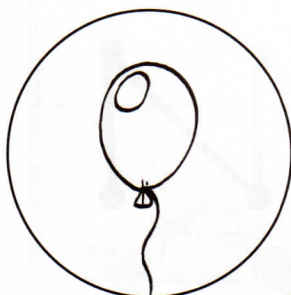

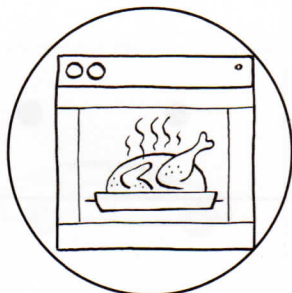

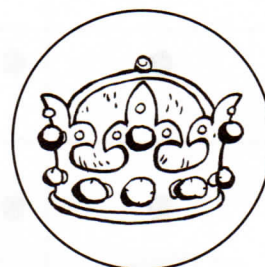

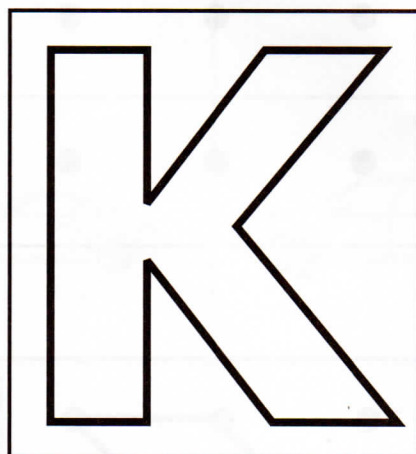

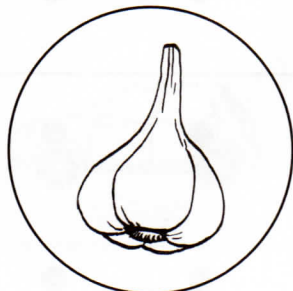

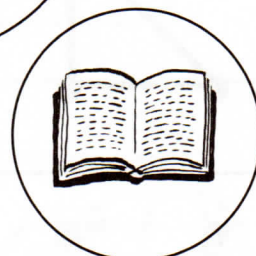

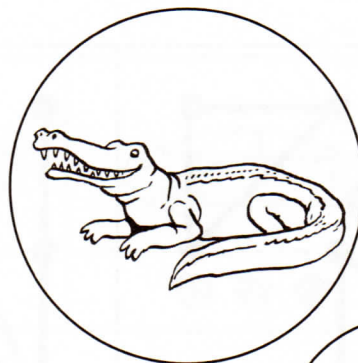

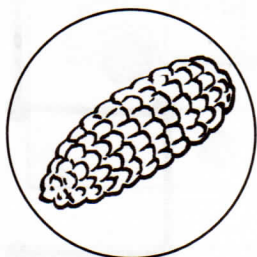

■ Zakroužkuj tu číslici, která ukazuje, kolik je věcí na řádce.

■ Modrou barvou zakroužkuj vše, co míří doprava a červenou barvou vše, co míří doleva.

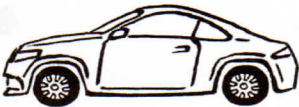

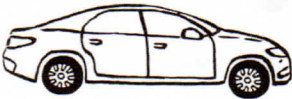

- Vybarvi písmenko K uprostřed libovolnou barvou. Stejnou barvou vybarvi i kroužky, ve kterých začínají obrázky písmenkem K.

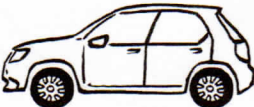

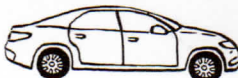

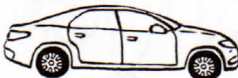

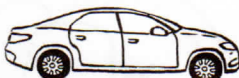

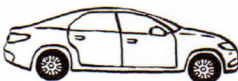

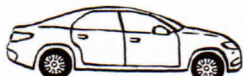

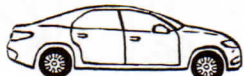

■ Propoj podle předlohy puntíčky v dráhu. Nakresli totéž pod obrázek na puntíčky.

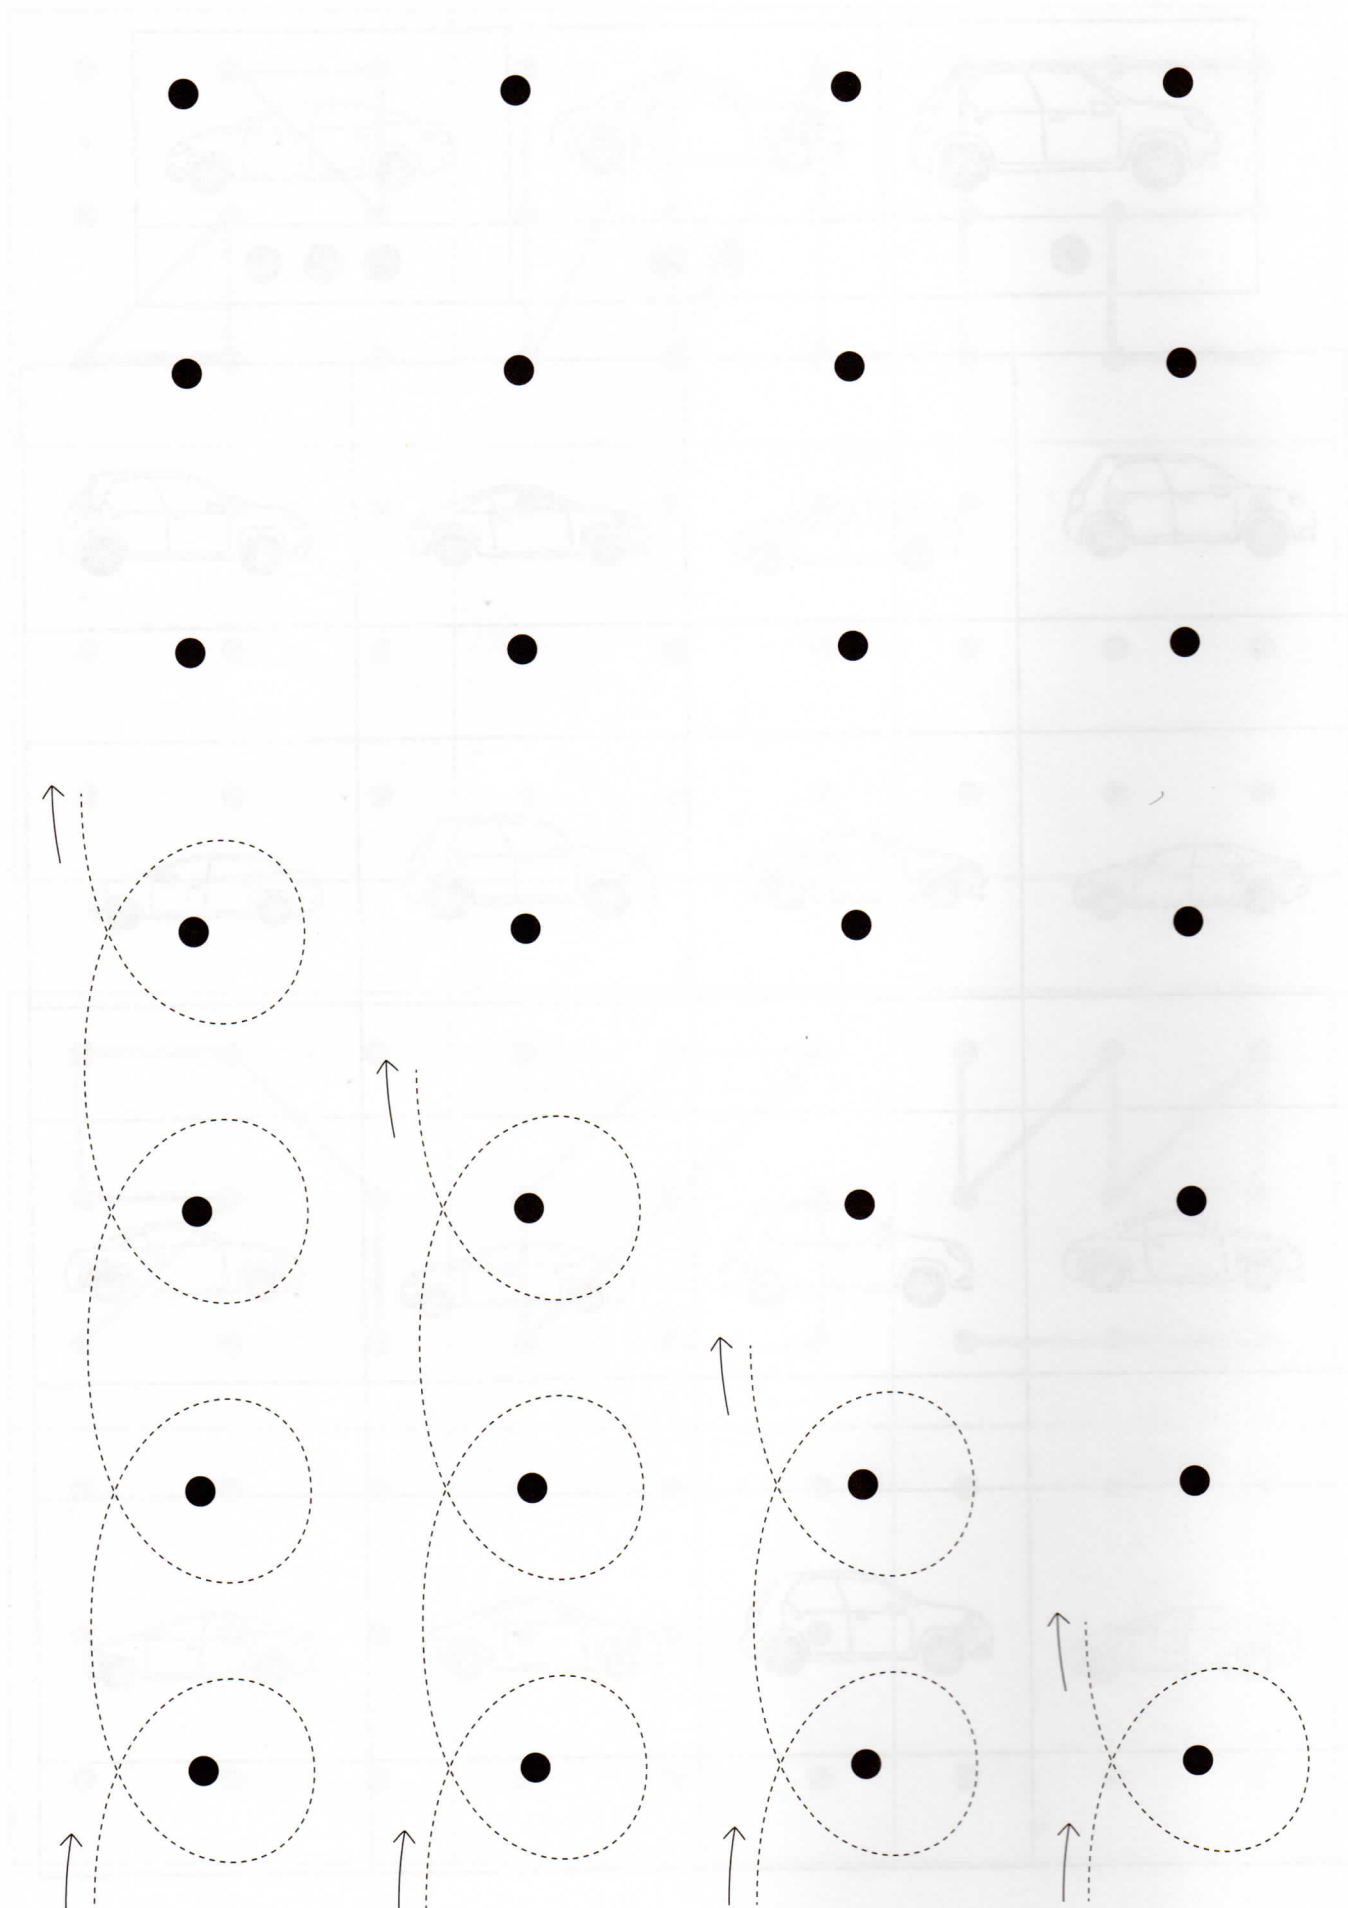

■ Dokresli do tabulky pod každé auto kolečka podle návodu nahoře. Buď pozorný, auta nejsou stejná.

		
		

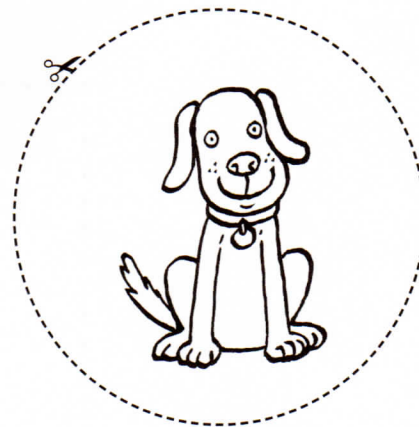

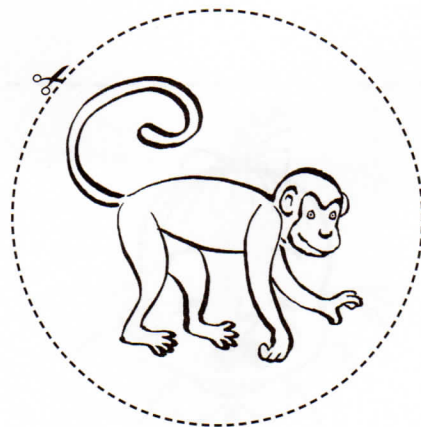

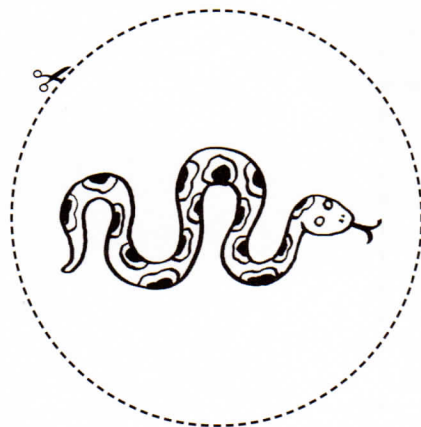

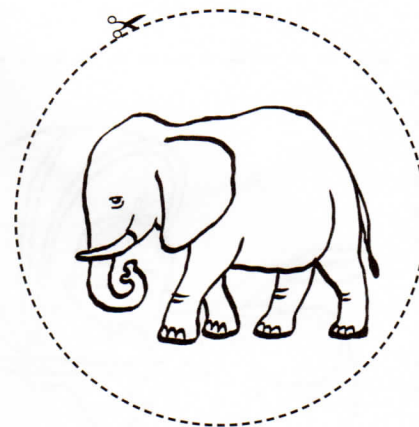

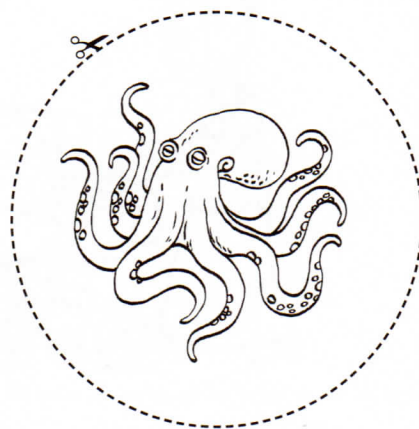

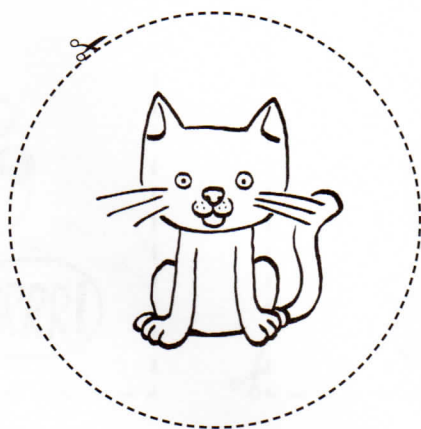

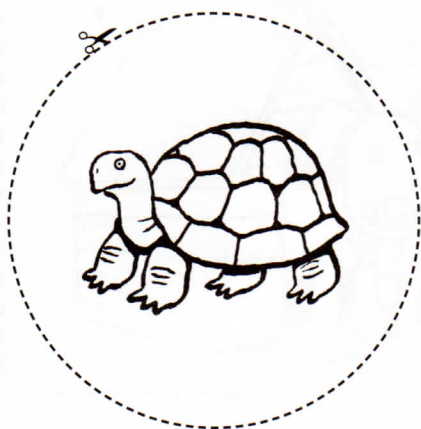

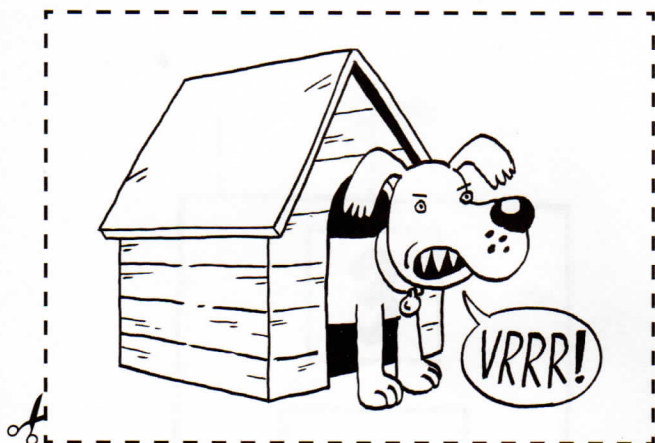

■ Obkruž každou kuličku podle předlohy a pokračuj sám/sama až do konce řádku.

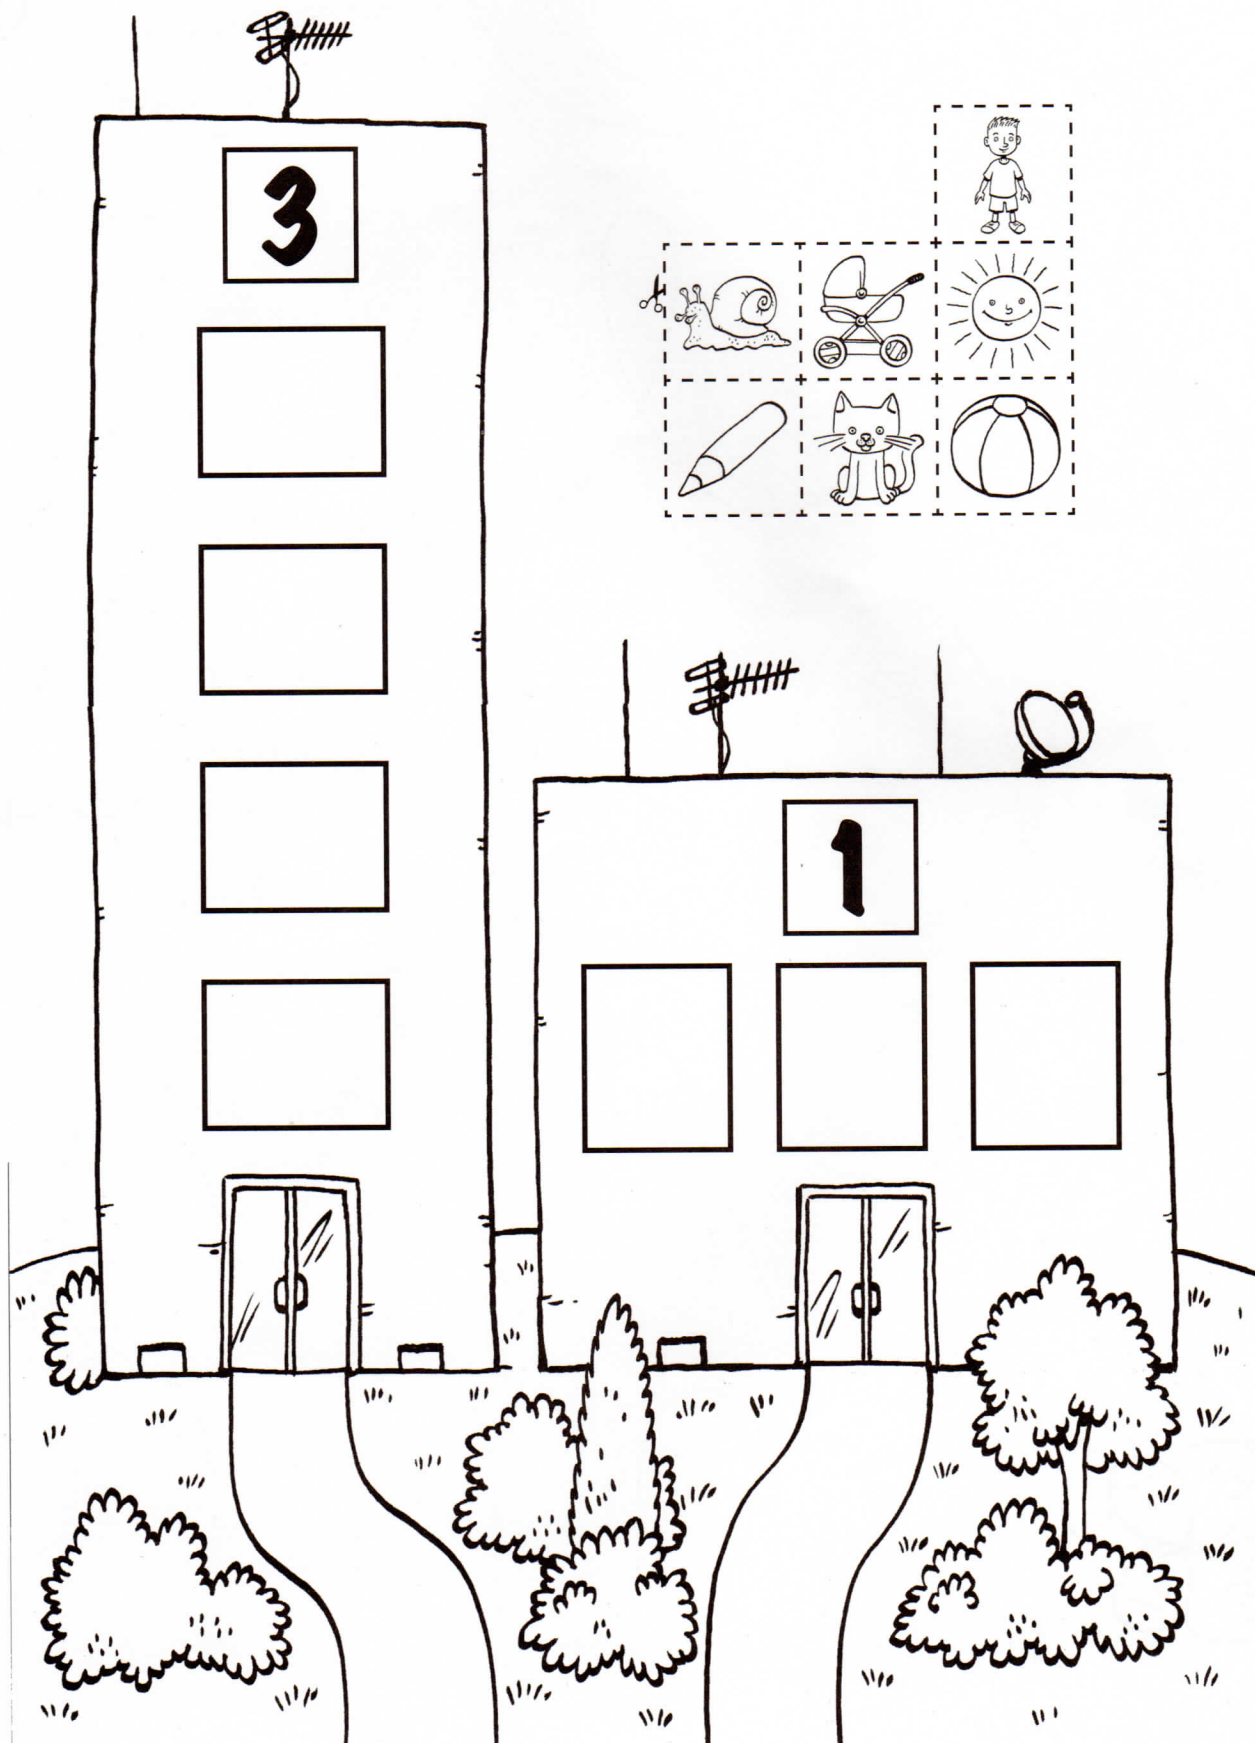

- Zahrajte si doma hru na zrakovou paměť. Nejprve vystříhej všechna kolečka, pak je rozprostři před sebe na stůl a pozorně si je prohlídni. Zavři oči a popros mamku, tatku, babičku, dědu, ať ti jedno kolečko schovají, a hádej, co na obrázku bylo. Můžete se s dospělákem střídat.

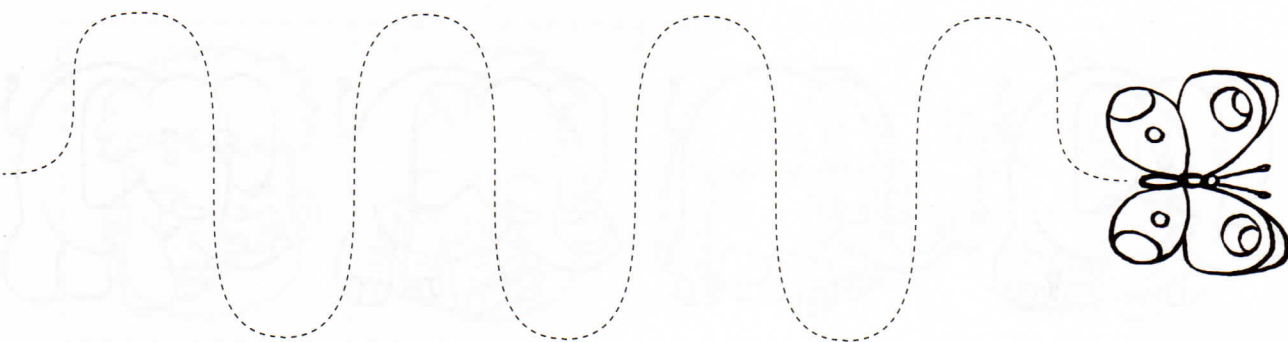

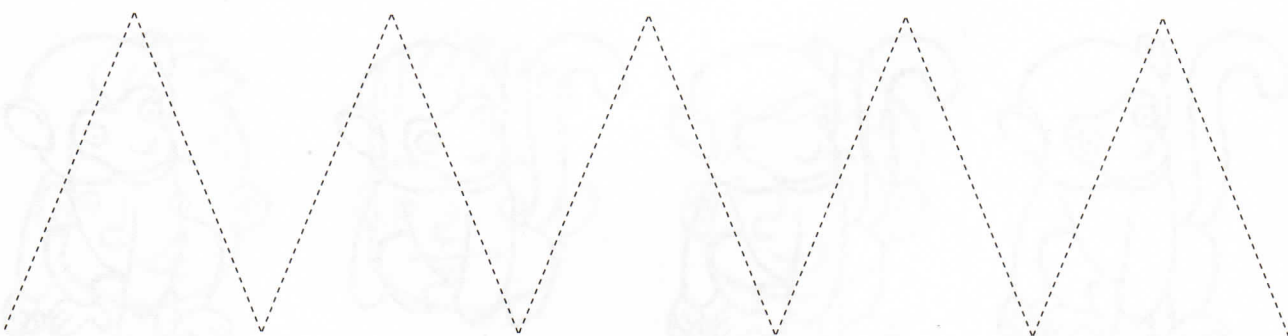

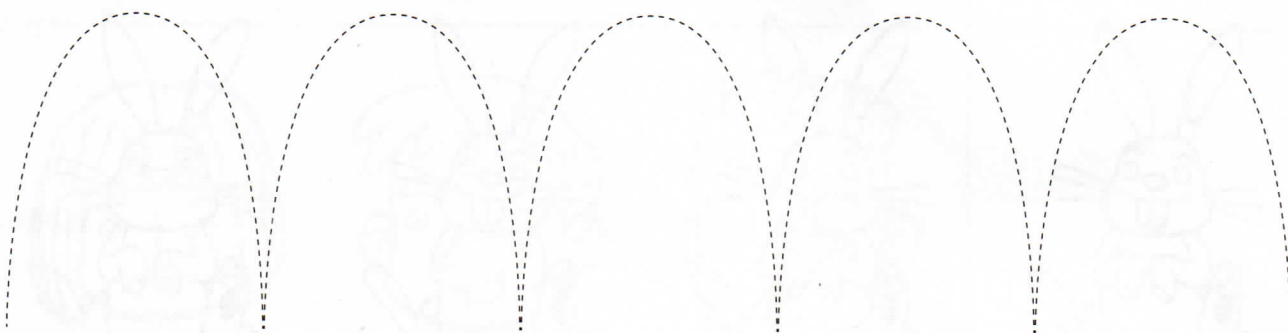

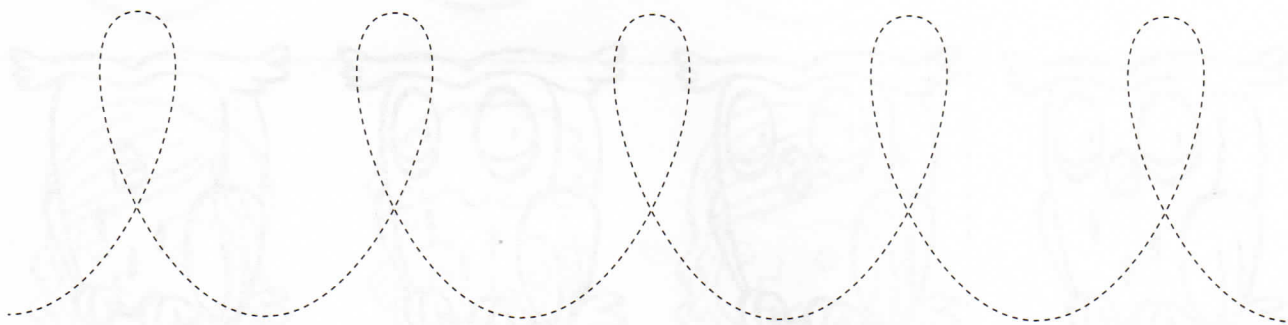

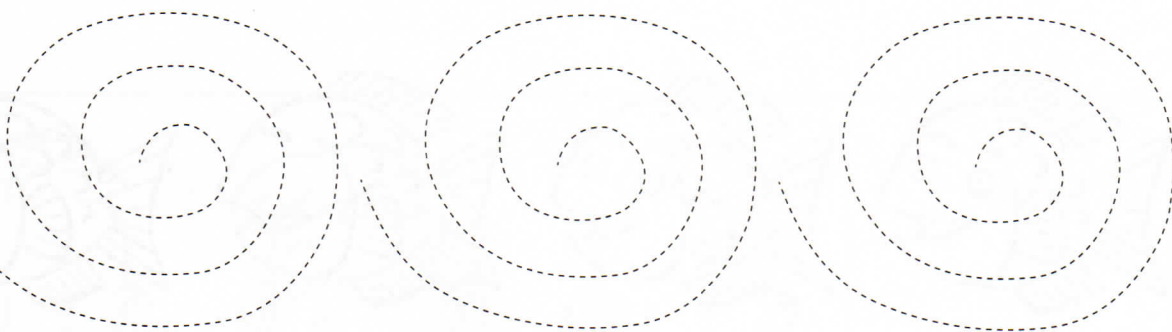

- Nejprve si vystřihni obrázky a seřaď je do řady vedle sebe tak, jak se asi příběh za sebou stal.
Vyprávěj, co se stalo!

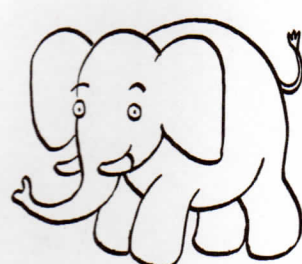

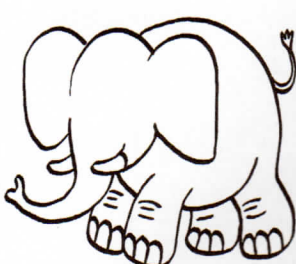

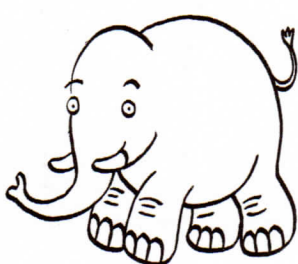

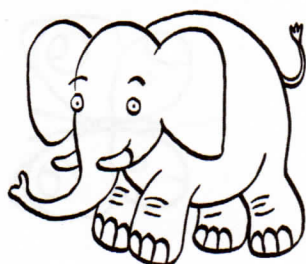

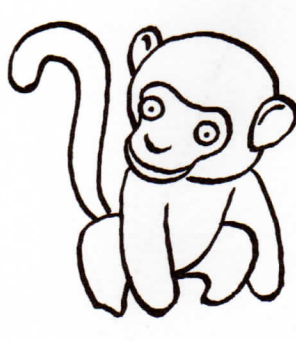

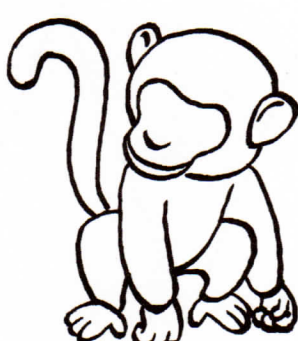

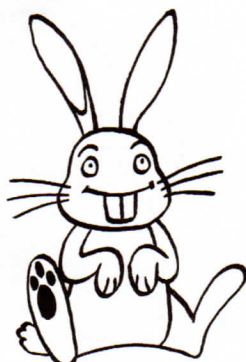

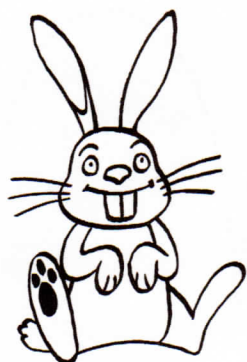

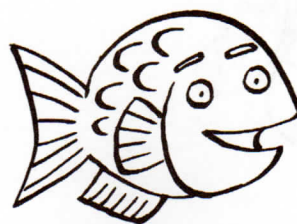

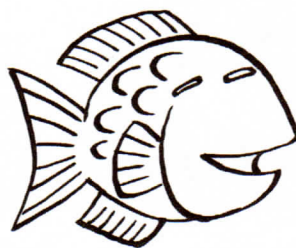

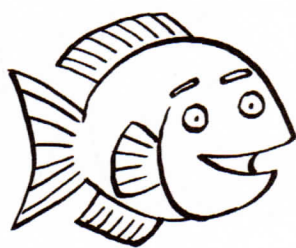

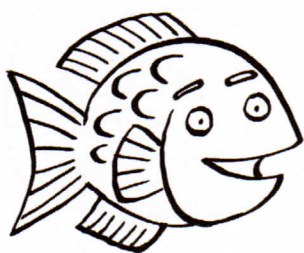

- Nejprve obrázek vybarvi.
- Vystříhni čtverečky s obrázky a nalep je do správných domečků podle toho, kolik mají slabik.
- Třísylabičná slova bydlí v paneláku. Jednosylabičná v nižším domě.

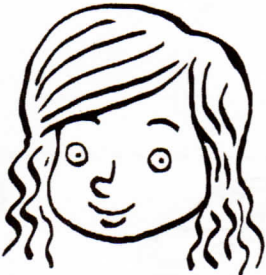

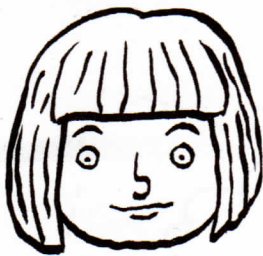

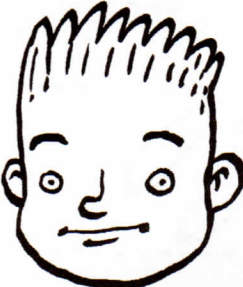

■ Prolet' se s motýlkem po stránce podle silnic a obtáhni je vždy pětkrát.

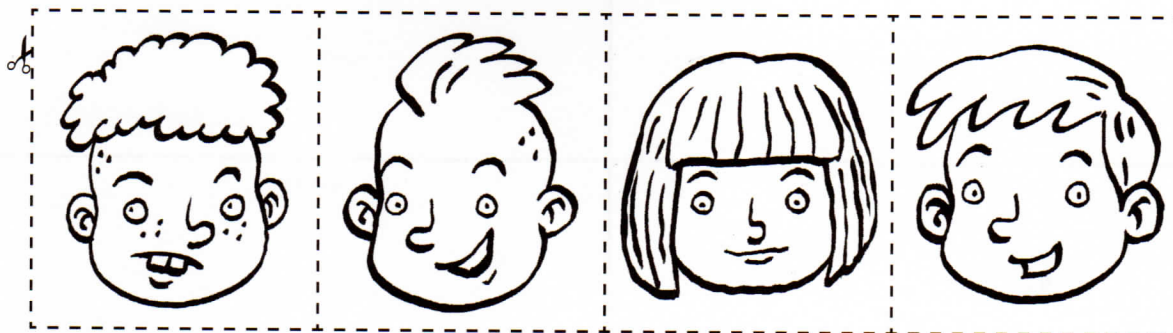

■ Dokresli podle prvního zvířete v řadě ostatním vše, co jim chybí. Použij barevnou pastelku.

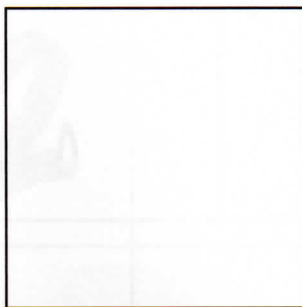

■ Vystřihni všechny obličejy pod tabulkou a nalep každý do prázdného okénka podle toho, jak se opakují.

- Na konci řádku chybí slovo. Poznáš, který čtvereček s obrázkem se do věty hodí?
Vybarvi je oba stejnou barvou a říkanku se nauč zpaměti.

- Slova se skládají ze slabik. Některá slova mají jen krátké slabiky, jiná i dlouhé.
Vytleskej slova na slabiky, urči čárkou jejich počet a zakresli do posledního políčka kapičky podle vzoru nahoře, jsou-li to slabiky krátké nebo dlouhé.

- Nejprve si vystříhni všechny obrázky a nalep je do tabulky podle toho, kolik mají slabik.
